

Nevada's Occupational Safety and Health Administration (OSHA) released guidelines Friday with recommendations and requirements for businesses operating during Nevada's Phase 2, after Governor Steve Sisolak released [Declaration 024](#) earlier this week mandating facial coverings. Some of the OSHA recommendations and requirements for all businesses operating during Phase 2 include:

- All employers must provide face coverings for employees assigned to serving the public and shall require these employees to wear the face coverings – **Required**
- All employers should require employees to wear a face covering in any space visited by the general public, even if no one else is present – **Recommended**
- All employers must require employees to wear a face covering in any space where food is prepared or packaged, for sale, or generally distributed – **Required**
- All businesses are required to mandate the use of face coverings by patrons, customers, patients, or clients and will notify/inform all patrons, customers, patients, and clients of the requirement prior to their entry into the establishment, with the exceptions delineated in Section 7 of Declaration 024 – **Required**
- Face coverings must be used in public spaces incorporated in or controlled by a business - **Required**
- Close or limit access to common areas where employees are likely to congregate or interact, and when in common areas required face coverings for employees – **Required**
- Promote frequent and thorough hand washing – **Required**
- Maintain regular housekeeping practices, including routine cleaning and disinfecting of surfaces and equipment, and provide sanitation and cleaning supplies to address those services – **Required**
- Conduct daily surveys of changes to staff/labor health conditions – **Required**
- Ensure that any identified first responders in the labor force are provided and use the needed Personal Protective Equipment (PPE) – **Required**
- Provide access to potable and sanitary water - **Required**
